Bridging the Supply Gap in Frontier Markets

Successful Produce, Stock, Sell Business Model

Markets	Established operations: Guatemala (Latin America), Dominican Republic (Caribbean) and Angola (Africa) New operations: Hondurus, El Salvador and Central African Republic	Expansion initiated: Nicaragua, Ecuador, Chile (Latin America)
Products	Vast range of essential OTC medicines – with healthy mix of generics and branded generics	833 product registrations in six countries700 registrations submitted or in the pipeline
Supply Chain	Outsourced production from WHO GMP certified plants in India, China and Portugal	Establishing the Company's first pharmaceutical formulation facility in Hyderabad
Distribution	Deep presence through 38 warehouses and on-ground fleet support	Successful process being replicated in other frontier markets; expansion plans in other global markets over near to medium term
Transformation	New initiatives strengthening functionality in supply chain, regulatory affairs and customer service	Centralized digital procurement, regulatory management and customized CRM tools

Key Success Factors

Market Selection Methodology

- Focus on countries with high-potential economic growth framework
- Identify non-English speaking countries with similar characteristics
- Low competitive intensity and potential to establish top-2 position
- On-ground feedback mechanism allows deep understanding of demand dynamics
- As population crosses prosperity thresholds, healthcare spends expand exponentially

Human Capital Management

- Established unique ecosystem of 100+ Indian expatriates in operating geographies
- Financial security ecosystem for key personnel, creating a highly motivated leadership team
- Local language training and support from local staff improves on-ground effectiveness
- Home grown management systems have already proven successful in several countries
- Homogeneous target markets allow cross-movement of people and resources

Regulatory Affairs Systems

- Appreciation and full compliance of local regulatory framework
- Comprehensive, in-house capabilities backed by cross-functional coordination with business/tech teams
- Digitization of regulatory operations with end-to-end management and data security
- Typical 12-24 month regulatory process is monitored at every stage supports corporate planning and
- Balaxi creates strong local IP

As a part of its corporate evolution, Balaxi is moving its business model from 'Asset Light' to 'Asset Right'. The company is setting up its first pharmaceutical manufacturing facility for which it has acquired land in a Pharma SEZ located at Jadcherla, Hyderabad.

Investment in Manufacturing Facilities

Setting up its first pharmaceutical formulation manufacturing unit

General Oral Solid Dosage (OSD) and Liquid Injection formulations

Allows full backward integration of supply chain

Targeting demand for high quality products in Latin American markets Production from Pharma SEZ unit near Hyderabad by Q2 FY25

Historically, Balaxi has successfully executed on its "produce, stock and sell" model. The company has built a large and diversified portfolio of products and a leading position by bridging the supply gap in several countries, first in low-regulation markets in Africa and more recently in semi-regulated markets in Latin America. This outreach has been backed by outsourced, WHO GMP compliant, diversified supply chains developed by the company. As a part of its corporate evolution, Balaxi is now setting up its first pharmaceutical formulation manufacturing unit to cater to the demand for high quality products in existing as well as targeted markets.

Favorable ROI on Capital Expenditure

Immediate demand for new production from established marketsHigher efficacy, greater acceptance, enhanced profit marginsStrong control over manufacturing ecosystemImproved regulatory processes, reduced time-to-market for new launchesOpens up several new market opportunities globally

Production from the unit, located at a Pharma SEZ near Hyderabad, will commence by 2nd quarter of FY25, focusing on General Oral Solid Dosage (OSD) and Liquid Injection formulations markets in Latin America and Africa. This will drive backward integration of the supply chain to these countries, currently outsourced through contract manufacturing relationships. This facility will produce higher efficacy products that enjoy greater acceptance and enhanced profit margins. From the operations standpoint, Balaxi will establish a manufacturing ecosystem that affords better control, improves regulatory processes and reduces time to market for new product launches. Over the medium term, Balaxi sees several new market opportunities opening up for its product lines.

Global Footprint

Existing/targeted markets have aggregate GDP of \$ 400 billion and pharma imports of \$ 6 billion

Key Milestones Started business supplying white labelled products to customers in Africa Diversified supply chain by Products were sourced from sourcing pharma products Set-up central distribution warehouse in Guatemala, from WHO GMP certified WHO GMP certified plants based in India manufacturers in China entering the third geography 2003-07 2008-10 2011-13 2014-16 2017-19 2020-23 Started operations in Honduras and El Salvador, Created front-end Continued Angola expansion by setting and Central African Republic presence by setting up the up the 14th pharma wholesale depot first pharma wholesale and a central distribution warehouse Successfully completed fund raising exercise depot in Angola through Preferential issue - INR 49.36 crore Made in-roads in Dominican Republic –

initiated product registrations and opened a central distribution

warehouse

Capex plans – Project initiated for our first Pharma Formulation manufacturing facility in Hyderabad

Clear understanding of the company's businesses spread across four continents and seven countries

Paridhi Maheshwari

Head – Alternate Channels

MBA Graduate from London Business School. Stickler for well-defined systems and processes Initiated and leads the consumer products business

Management's Comments

"Q1 was an exceptionally challenging quarter for Balaxi. We witnessed unprecedented economical chaos in terms of currency depreciation in our biggest and oldest market of Angola, where local currency weekend in record time beyond the 800-per-dollar mark for the first time ever. Despite the various corrective measures, this unparalleled economic scenario created disorder in customer sentiments and an uncertain market outlook, thus, resulting in a severe impact on the company's performance in both the top line and bottom line. In spite of the headwinds faced in Angola and associated working capital issues, the Company remains to be Net-Debt-Free as on 30th June, 2023. However, in our strategic focused market of LATAM, by continuing our core competencies, revenue grew by 25% and it has contributed more than 50% of pharma revenue with a healthy gross profit margin of 39%.

During the quarter, we received 25 new product registrations. As on 30 June, the number of registered products in our portfolio expanded to 833 across six countries in Africa and Latin America. Apart from this, we have another 700 products under registration or in the pipeline for registration. With the increase in the number of product offerings, we expect to further increase our market share in the countries of our focus. We also plan to launch our operations in new countries in these regions.

Going forward, we see several levers that will potentially add value the operations over the next several years - geographical expansions into new frontier markets, leveraging of existing strengths to gain scale in additional geographies, deep penetration in previously launched operations, backward integration of supply chain by setting up company' first pharma formulation facility, and a very strong pipeline of product registrations and regulatory submission across the board."

Ashish Maheshwari Chairman & Managing Director

NOTE: Financial Results for FY23 are not strictly comparable with FY22 due to the consolidation of Balaxi Healthcare LDA Angola, which became a wholly owned subsidiary of Balaxi Global DMCC with effect from 1st January 2022

Balaxi

*Africa: Angola and Central African Republic *LATAM – Guatemala, Dominican Republic, Hondurus and El Salvador

Core Strategy: Enter, Expand & Excel

Balaxi in 2020: Business Consolidation

- Presence across Angola, Guatemala and Dominican Republic
- Effective and efficient supply chain model consisting of 38 warehouses and a fleet of owned vehicles

Balaxi in 2021-23: Expansion into New Geographies

- Aim to capture incremental market share in existing geographies by continuing to pursue various opportunities by leveraging physical assets
- Expanding presence in Honduras, El Salvador, Nicaragua, and Central African Republic
- Focus on offering a comprehensive product portfolio to fulfill consumer demand

Balaxi in 2024 & Beyond

- Foray into other Latin American countries, South-East-Asia and CIS markets, replicating the established and differentiated business model
- Plans to enter new global markets backed by our first pharma formulation manufacturing set up
- Focus on ideal mix of branded and generic medicines, maximizing returns in key geographies
- Targeting strong global presence in top 20 frontier markets over the next five years
